PercuTwist

A technical superior solution to all problems?!

Our patented Single-Step-Dilator PercuTwist is setting new to a unique design with a tapping thread, that has been cus procedure, percutaneous dilative tracheostomy has for the safe and controllable procedure, from start to finish. The ar can be lifted during dilation, thus enabling an unrestricted e the dilation site at any given time.

Different leverage

Due to the different diameters of the handle the necessary applied according to individual needs while penetrating the end they are less strong, whereas rotation of the lower part

Maximum Safety

The novel hydrophilic coating of the tapping thread facilitat tissue and thus reduces the effort required. The forces that for penetration can be controlled `twist by twist`.

Ready to hand in much less time

It is easy to use and saves time: The PercuTwist set contain components for a percutaneous dilative tracheostomy - giv between our tracheostomy tubes PercuQuick or CrystalCle match the insertion dilator perfectly and thus guarantee a s introduction through the tracheostoma.

PercuTwist Dilator

PercuTwist set for tracheostomy

Ref. 12 15 55 with PercuQuick cannula in sizes 7,0; 8,0 un
Ref. 12 15 56 with CrystalClear cannula in sizes 7,0; 8,0 ur

To complete the PercuTwist® product line you can as of nc **PercuTwist® solo**, which does not contain any tracheosto components of PercuTwist® sets. The basic set additionall dilator of the respective size to enable introduction of a trac end of the procedure.

Ref. 12 15 57, PercuTwist® solo, sizes 7, 8 and 9.
